

Friday 28 June 2019

Symposium Genitourinary Cancer and Quality of Life

**Panorama Room - 16th floor, Inntel Hotels Rotterdam Centre
Rotterdam, The Netherlands**

This symposium will focus on interventions in improving cancer care, quality of life and psychological wellbeing in survivors of genitourinary cancers.

The symposium will address:

- ✓ What is quality of life and how to measure it
- ✓ The effects of treatment for testicular cancer on quality of life
- ✓ The use of novel radiotherapy techniques to improve quality of life
- ✓ The effects of radiotherapy for genitourinary tumors on sexual functioning
- ✓ The effects of hormonal manipulation and chemotherapy for genitourinary tumors on quality of life
